DRY PLANK FOR DEMOCRATS

SUB COMMITTEE STRIKES ALL MOISTURE OUT OF THE PLATFORM

Adjourns To Evening After 14 Nominations

(By Associated Press) AUDITORIUM, SAN FRANCISCO, July 1.—With fourteen candidates placed before it for the presidential nomination the democratic convention after a brief session today, found the platform committee unable to make a report and adjourned until 8 o'clock tonight.

(By Associated Press) SAN FRANCISCO, July 1.—The galleries were filled early in expectation of observing a fight on the platform issues. Delegates however came in slowly and at eleven o'clock the hour set for resuming the session, the floor and delegates space as usual were only partially filled with chatting members.

Senator Simmons, of North Carolina, Senator Glass, of Virginia, and John Davis, ambassador to Great Britain, all were formally presented to the democratic national convention today of presidential candidates during the first hour of the convention.

At 11:20 a. m. Chairman Robinson called the convention to order for the fourth day's session. When the call states was resumed New Mexico simply seconded the nomination of William G. McAdoo. It was the signal for a demonstration which started the galleries and spread to some delegates on the floor but did not last long.

North Carolina sent W. Newland, of Lenoir, to the platform to place in

nomination Senator Simmons for whom the North Carolina delegates were instructed. Mrs. Martha McCann, of California, seconded Simmons, then North Dakota passed and Oregon announced its delegation had

Suggested as good timber for Vice-president to catch the farmer's vote.

COLDEST JUNE FOR FOUR YEARS

Last month was the coldest June for four years with a mean temperature of 65 compared with 67 in 1919, 72 in 1918 and 67 in 1917. Much colder weather has been experienced here, according to the records of the U. S. Weather Bureau which show that the lowest on record was reached in 1907 when the mean was down to 59 and the year following when the mean was only 61. The normal for the month is 63.9. The lowest temperature last month was 43 on the 29th but this was surpassed by a reading of 25 in June 1908. The month, however, held another feature that will interest weather sharps. While the cold was near the record the maximum was about equal to the warmest which was 92 as an average of fourteen years. Last month a record of 91 was registered. Precipitation for the month was .31 of an inch compared with a normal of .44 of an inch making a total precipitation since September of 3.99 when the normal calls for 9.48 which leaves a serious deficiency for those depending on the run off from the mountains. The prevailing direction of the wind was from the southeast with a maximum velocity of 34 miles an hour on the 20th. Sunshine was deficient with a mean of 79 per cent.

As several of the smaller islands of New Zealand are without telegraphic communication with the mainland, a substitute has been found in carrier pigeons. Diamonds have been discovered in fallen meadows.

Minimum yesterday	50	56

BRYAN'S PLANK BECOMES CENTER OF THE CYCLONE

(By Associated Press) SAN FRANCISCO, July 1.—Bryan's prohibition plank around which today's fight in the platform committee is centered reads as follows: "We heartily congratulate the democratic party on its splendid leadership in submission and ratification of the prohibition amendment to the federal constitution and we pledge our party to the effective enforcement of the Volstead law honestly and in good faith without any increase in the alcoholic content of permitted beverages, and without weakening of any other of its provisions."

LADIES SNUBBED BY SOUTHERNERS

(By Associated Press) SAN FRANCISCO, July 1.—Representatives of the National Woman's Party who planned to hold a conference with members of the Tennessee delegation today in the interest of the passage of the suffrage amendment through a special session of the Tennessee legislature have called it off. Members of the delegation showed no disposition to confer with the suffragists. The women will meet with North Carolina delegates today.

SCANDINAVIA AVERTS A PAPER FAMINE

(Correspondence of Associated Press) RIO DE JANEIRO, June 7.—What is said to be the finest Finnish steamer to enter this port has arrived here, the Garryale, of the Finland Transoceanic company. Of more interest to newspaper owners, however, was the cargo—1,000 tons of print paper from Scandinavia for local delivery. The shortage and consequent high price of print paper is the most important question confronting Brazilian newspapers.

"joined the movement to draft the Honorable William McAdoo." Rhode Island passed so did South Carolina, Tennessee and Texas and Utah announced it seconded the nomination of McAdoo.

Virginia sent Representative Flood to nominate Carter Glass whom he described as a "close political adviser of Woodrow Wilson." When West Virginia was called Governor Cornwell nominated Ambassador Davis.

"You cannot in this convention nominate a man merely because he is supposed to be popular with one particular group of people in the country at the sacrifice of leadership," Governor Cornwell said and the convention construed his remarks as a thrust at the McAdoo plank.

Mrs. Julia Brown, of West Virginia, before her marriage Iretta Jewel, an actress, seconded the nomination of Davis and began by telling the convention a funny story which ran to the effect that while man was asleep in the Garden of Eden, the Creator took his brain to create woman. The men of the convention took the thrust and laughed heartily.

"The women will elect a man whose past life can stand a searchlight test and whose present life measures up to women's ideals," the speaker said. The convention then adjourned until eight tonight.

G. O. P. LEADING NON PARTISANS

FARGO, N. D., July 1.—Figures from yesterday's state primary election from 379 precincts out of 2,944 show William Langer, independent republican candidate for governor, is leading Governor L. Frazier, non-partisan league candidate by 11,218 votes.

BUDDHA USED PLACE OF GOD

(Buenos Aires, June 2.—) Permission to swear by Buddha instead of God and the Holy Apostles was granted by the Superior Court of Corioba the other day to a young law student of agnostic belief when he took oath of membership in the Argentine bar. He sought first to take the oath "by my country and my honor" but the court informed him that he would be obliged to take a "religious oath."

The student, it is related, thereupon went to a library and began a study of the world's religions, on which he spent several days. He then returned to the court and informed the learned judges he had found that the Buddhist religion was "the most moral and most complete" and asked permission to take oath upon it. The judges consulted musty tomes of Argentine law and decided there was nothing to exclude him from taking such an oath.

McADOO SILENT AS MARBLE SPHINX

(By Associated Press) HUNTINGTON, N. Y., July 1.—Maintaining a sphinx like silence, William G. McAdoo, at his country home here today declined to be persuaded by newspaper men to make any comment on his nomination at San Francisco.

THOMAS R. MARSHALL

Vice-president and Reservationist who may be accepted as a compromise for President

ULTIMATUM ON RECOGNITION OF IRISH CAUSE

(By Associated Press) SAN FRANCISCO, July 1.—The sub-committee plank proposing to leave the settlement of the Irish question to the league of nations was rejected today by the full platform committee which also voted down by a majority of two to one a blanket proposal favoring Irish independence.

(By Associated Press) SAN FRANCISCO, July 1.—A caucus of Irish sympathizers among the delegates applied to the convention resolutions committee for a five minute hearing in which to present their argument for an Irish recognition plank. The caucus chairman, John Fitzgerald, of Rhode Island, said it was proposed to serve an ultimatum on the committee that a floor fight would be made for such a plank.

The caucus was held in a hall adjoining the committee room. More than two hundred delegates are said to have attended. Through Senator Walsh, of Massachusetts, the request that Frank Walsh, of Kansas City, be heard was submitted.

Fitzgerald said a minority report favoring a recognition plank was demanded to pave the way for carrying the fight to the floor. Should it be refused or the committee refuse to hear Walsh, he said, the caucus of Irish sympathizers would be determined at another caucus session later in the day. The convention rules could not prevent a floor fight, he said.

WADSWORTH JUDGE DEAD

Judge David Wadsworth, one of the most prominent residents in Wadsworth for the past thirty years, died Tuesday at the age of seventy-eight years. He has been ill for some time.

Judge Wadsworth, a native of Pennsylvania, had been justice of peace at Wadsworth for the past five years and was owner of the Emma L. mine in the Ollinghouse district where he had engaged in mining for many years. After arriving in this state he was a railroad telegrapher at Carlin for nine years, and at Winnemucca for over a year.

TIoga ROUTE IS OPEN SO TRAVELERS REPORT

Travelers over the Tioga road report it is in fair condition. Only one small snow patch remains, and this is of no trouble. Several cars came out of Yosemite Valley over this road in the past few days. The road is open for summer travel, in the word received from all who have come over the route in the past few days.

CONCESSIONS MADE ON LEAGUE OF NATIONS FIGHT ON THE FLOOR

(By Associated Press) SAN FRANCISCO, July 1.—The democratic platform, as drafted by the sub-committee of nine and submitted to the full committee, declared for ratification of the peace treaty as requisite to preserve the honor and integrity of the nation and suggests that the Irish question can be brought legitimately before the league of nations for settlement and is silent on the subject of prohibition. It advocates collective bargaining for farmers, opposes compulsory arbitration of labor disputes, declares for recognition of the new Mexican government when it has established order and calls on the legislatures of Tennessee, Florida and North Carolina to ratify the suffrage amendment.

In many respects the platform follows that adopted by the Virginia democrats and publicly approved by President Wilson. The league of nations plank in particular is taken virtually as a whole from the Virginia platform although in other respects there have been modifications and many new subjects added.

The plank dealing with the league of nations was adopted by the platform committee early today. A long bitter fight delayed the platform workers in the treaty battle the administration failed to secure adoption of its plank without amendment. The committee by a vote of 72 to 18 adopted an addition to Senator Walsh, of Massachusetts, providing for ratification of the Versailles treaty with reservations consistent with American obligations. The substitute planks of Bryan and Senators Pomeroy and Walsh were thrown out.

As submitted to the committee, the administration treaty plank, according to authoritative statements provided that "we recommend ratification of the Treaty of Versailles and the League of Nations covenant without reservations which would impair its essential integrity." The words added by Walsh's amendment were "but we do not oppose reservation which make more clear or specific our obligations to associated nations."

M'Adoo Forces Fuse To Force Nomination Against the Field

(By Associated Press) SAN FRANCISCO, July 1.—Overnight conferences of the forces seeking to effect a combination to defeat the nomination of William McAdoo failed to reach any agreement on a candidate and their only accomplishment seemed to be the stiffening of the determination to hold solid if possible, and to vote their block of votes as a counter move to meet any combination against McAdoo. The administration forces were scouting for a dark horse of their own who could break such a combination if it proved effective. Vice-president Marshall had been talked of to head the combination.

McAdoo, Thomas Taggart, head of the Indiana delegation, did not attend the conference.

There was mention of Cummings, who always had been a factor since his keynote speech as temporary chairman and the new name heard was that Bainbridge Colby, secretary of state, but there will be no trend toward either of these or any new names introduced until the Palmer or Cox forces or both definitely join the combination which has for its purpose the defeat of McAdoo. No progress was made in the movement to bring Bryan into the combination and have him place in nomination former Speaker Clark.

CALOMEL PLACED IN THE FROSTING

A house party was given last evening at a home on the slope of Mount Brougher which attracted the attention of a party of uninvited guests who visited the home before the rising moon got too bright for observation. The result is that today five boys are writhing in the care of physicians in an effort to determine the most effective way of getting at their insides to relieve them from an overdose of calomel.

The five sufferers are members of a gang that has enjoyed immunity from prosecution for various misdeeds and it is probable that the cure administered last evening will bear permanent results. The lads sneaked around to the back porch where they found a fine array of cake covered with the most delicious frosting. Using a bent wire, they worked the hook off the inside of the screen door and helped themselves to the plunder, which they devoured with ravenous appetites. Every morsel of the tempting icing was consumed. Thereby lies the tale of agony and remorse. The going had been decorated with calomel which, before morning caused the misdoers to think they were turned inside out. One youth suffered more than the others and his parents, wholly oblivious of the cause of the suffering, called a physician who used a stomach pump with twenty feet of garden hose and slowly brought relief. An analysis disclosed calomel in large quantities and that settled the guilt of the sick boys. The five boys are known and their parents have been informed of the cause of the disturbance, so it is safe to infer that

HIGHGRADE IN SHAFT BOTTOM

Peter Fox, daddy of Arrowhead, and superintendent of the Arrowhead Mining company, arrived last evening from the camp, on his way to Tioga and California coast cities to take a two weeks rest. He brought in the news that the shaft had reached the 267 foot point and, after sinking a sump, everything will be ready to crosscut and drift on the vein. At five feet from the bottom of the shaft a new streak of high grade ore was struck on the foot wall side which assayed \$127 per ton in silver. The last round broke ore showing considerable silver sulphide and in a streak over a foot wide. This ore assayed 299 ounces in silver and is the downward extension of the high grade shoot recently opened up in the west drift 167 feet above the bottom of the shaft. The ore just found on the footwall is about twelve feet below the ore which occurs on the hanging wall and which after being followed down in the shaft for 75 feet below the second level, dipped out of the shaft and will be reached by crosscutting to the south. Water is coming into the shaft at the rate of several hundred gallons per day and indicates the permanent water level.

A curiosity of Ceylon is a tree called "Rue's Apple Tree" which is remarkable in that the orange red fruit is beautiful to look upon, yet out of each fruit a piece appears to have been bitten. The fruit is poisonous.

MRS. HOBSON ON WAY TO BOSTON

Mrs. Townsend Hobson left this morning for Boston where, she is entered for a two year course in the Conservatory of Music and therefore will not be attached to the Tonopah high school next year. This loss will be regretted by parents and pupils as Mrs. Hobson was one of the most talented instructors in her special branch and was universally popular with the children. As a mark of their appreciation a few of the students remaining in town from last year gave Mrs. Hobson a farewell party which was arranged for the presentation of a hand painted tray and six smaller trays to the departing teacher. Mrs. Hobson was accompanied on her journey by Miss Billie Wye, who goes to Boston to accept a position as accountant with one of the big movie companies. The departure of the ladies was the occasion for a large attendance at the train of friends and pupils who wished the travelers a safe journey.
